INSTALLATION GUIDE: DASHER BOARD GRAPHICS

Note: Please be sure to thoroughly clean any over sprayed ice paint, residue, or moisture that may exist on dasher board surface prior to installation.

1

Remove a portion of the backer from the dasher board graphic.

2

Align the top left corner of the dasher board graphic, referencing the top of the boards for a leveling point

3

Apply pressure to the first end of the dasher board graphic to adhere it to the boards.

4

Remove the remaining backer from the dasher board graphic.

INSTALLATION GUIDE: DASHER BOARD GRAPHICS

5

Align the top right corner of the dasher board graphic, referencing the top of the boards for a leveling point.

6

Using a squeegee, adhere the rest of the dasher board graphic to the boards in a middle-up, middle-down motion from one end to the other, "chasing" any bubbles to the edge of the dasher board graphic if necessary.
